Case No. 2:10-cv-0106-LRH-PAL

DECLARATION OF JIM BENGE IN OPPOSITION TO ORACLE'S MOTION FOR A PERMANENT INJUNCTION

OPPOSITION TO ORACLE'S MOTION FOR A PERMANENT INJUNCTION

I, Jim Benge, have personal knowledge of the facts stated below and under penalty of perjury hereby declare:

1.   I am the Vice President of PeopleSoft Development at Rimini Street, Inc. ("Rimini"). I have been in that position since February 1, 2009. I have worked at Rimini since June 23, 2008.

2.   As Vice President of PeopleSoft Development, I oversee the delivery of enterprise software updates to keep Rimini's PeopleSoft clients in compliance with evolving tax, legal, and regulatory requirements and am familiar with Rimini's processes for providing support services related to Oracle's PeopleSoft software product.

3.   Rimini's current support processes for PeopleSoft do not rely on the use of any "local" PeopleSoft environments or documentation on Rimini's computer systems.

4.   Rimini's current support process does not download or transmit onto Rimini's computer systems any PeopleSoft software or documentation from password-protected Oracle websites, or upload such software or documentation from any Oracle installation media.

5.   Instead of using local or cloned copies of PeopleSoft, Rimini's current process involves remotely accessing a Rimini client's PeopleSoft environments that Rimini uses to service that client.

6.   Certain of Rimini's clients have elected to store copies of PeopleSoft software or documentation on cloud computing platforms, such as Amazon or Windstream. For those clients, Rimini's current process involves remotely accessing the clients' PeopleSoft software or documentation that is stored in the cloud.

7.   Rimini's current process does not use automated tools to access or download PeopleSoft software or documentation from password-protected Oracle websites.

-1-

OPPOSITION TO ORACLE'S MOTION FOR A PERMANENT INJUNCTION

8.   When Rimini downloads PeopleSoft software or documentation from password-protected Oracle websites for a Rimini client, the current process involves using only that client's valid login credentials.

9.   Rimini's current process does not use one client's PeopleSoft software or documentation to reproduce or "clone" a new environment for any other Rimini client.

10.   Rimini's current process does not reproduce PeopleSoft software or documentation licensed to one client from that client to any other client.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

**DECLARATION OF CRAIG
MACKERETH IN OPPOSITION TO
ORACLE'S MOTION FOR A
PERMANENT INJUNCTION**

I, Craig Mackereth, have personal knowledge of the facts stated below and under penalty of perjury hereby declare:

1. I am the Group Vice President of Global Application Support at Rimini Street, Inc. ("Rimini"). I have been in that position since January 1, 2014. I have worked at Rimini since May 14, 2012.

2. As Group Vice President of Global Application Support, I oversee the world-wide delivery of Rimini support services for SAP and Oracle software products and am familiar with Rimini's processes for providing support services related to Oracle's Oracle Database software product.

3. Certain Rimini clients may, but are not required to, use Oracle Database to support their other Oracle software products, such as PeopleSoft, JD Edwards, and Siebel.

4. Rimini's current support processes for Oracle Database do not rely on the use of any "local" Oracle Database environments on Rimini's computer systems.

5. Rimini's current support process does not download or transmit onto Rimini's computer systems any Oracle software from password-protected Oracle websites, or upload such materials from any Oracle installation media.

6. Instead of using local or cloned copies of Oracle Database software, Rimini's current process involves remotely accessing a Rimini client's Oracle Database environments that Rimini uses to service that client.

7. Certain of Rimini's clients have elected to store copies of Oracle Database software on cloud computing platforms, such as Amazon or Windstream. For those clients, Rimini's current process involves remotely accessing the Oracle Database software stored in the clients' cloud environments.
